

# Simplover - Beta testing addendum

Simplover may offer beta-testing of modules ("Beta Testing Modules") to select customers or users ("Beta Testers"). This addendum to the main agreement between Simplover and customer regulates the use of such beta-testing.

The Beta Testers shall use the Beta Testing Modules for the purpose of testing new functionality, new technology, evaluating, and providing feedback to Simplover.

The Beta Testers agree to provide Simplover with feedback on the Modules, including but not limited to any bugs, errors, or other issues encountered during the testing period. The Beta Testers acknowledge that any suggestions, feedback, or other information provided to Simplover during the beta-testing period may be used by Simplover without compensation or attribution.

The Beta Testers acknowledge that the Beta Testing Modules are pre-release versions and may contain errors, defects, or other issues. The Beta Testers agree to use the Modules at their own risk and hold Simplover harmless from any claims or damages arising from their use of the Modules.

Simplover reserves the right to terminate the beta-testing program at any time and for any reason, in its sole discretion.

After the Beta Testing Period is finished, as agreed between the Customer and Simplover, this addendum is rendered no longer in effect and obsolete.
